

Dear Mr. O'Neill,

I refer to your letter dated 10th March 2016 in respect of the above. Please note that the Commission for Energy Regulation (CER) have no comments to make on this application.

Kind regards,

Liz Kavanagh
Licensing Officer

Regulating Water, Energy and Energy Safety in the Public Interest

Dear Addressee,

Thank you for your respective observations/comments on this application which were received recently and have been noted.

Please find attached a revised application form submitted by the applicant. The only change (other than the date) is in Item number 25.

In the original application form the heights of the wind turbine blades and wave energy converters were 60m and 30m, respectively above UKHO Admiralty Chart Datum.

In the revised application form the heights of the turbine blades and wave energy converters are 35m and 5m respectively and these heights are relative to sea level.

For purposes of clarity, please confirm if the above changes your observations or if your initial comments still stand.

Regards
Pat
