Dear Pat,
Thank you for your email with regard to the foreshore lease application (Ref FS 006566).
This application is outside the scope of the Control of Major Accident Hazards Regulations 2015 and hence the Authority has no observations to make at this stage.

Kind Regards,
Dermot

Dermot O' Callaghan

Dear Addressee,

I refer to the above application that was referred to your respective offices on 10/03/2016.

As this is a high priority strategic project, please let me have your observations as soon as possible.

Regards
Pat

Dear Addressee,

Thank you for your respective observations/comments on this application which were received recently and have been noted.

Please find attached a revised application form submitted by the applicant. The only change (other than the date) is in Item number 25.

In the original application form the heights of the wind turbine blades and wave energy converters were 60m and 30m, respectively above UKHO Admiralty Chart Datum.

In the revised application form the heights of the turbine blades and wave energy converters are 35m and 5m respectively and these heights are relative to sea level.

For purposes of clarity, please confirm if the above changes your observations or if your initial comments still stand.

Regards
