(before a date specified by the registration body in the
submission) by the Authority of its opinion as to whether
any provision of the draft would be likely to result in
competition being prevented, restricted or distorted.

(4) The registration body shall take into account any comment
received by it in accordance with an invitation under
subsection (3)(a) and any opinion in writing of the Competition Authority
received by it in accordance with a request under subsection (3)(b)
in relation to the draft code or any amendment of it before it
prepares the code or the amendment.

(5) The registration body shall provide a copy of the code it has
prepared to anyone who requests it, on payment of a reasonable
charge, or without charge where it considers it appropriate.

57.—(1) Any person may complain to the Professional Conduct
Committee (the “Committee”) concerning an action of a registered
professional which is alleged to amount to professional misconduct
or poor professional performance.

(2) Where the Committee is of the opinion that a prima facie case
has not been established for an inquiry under subsection (5) with
respect to the complaint, it shall so inform the complainant in writing
and shall not proceed further.

(3) The Committee may, where it considers it appropriate to do
so, request the complainant and the registered professional who is
the subject of the complaint to seek resolution of the complaint by mediation before a person or persons appointed under rules made by the relevant registration body and if the complainant and the registered professional consent to such mediation being conducted, such mediation shall be conducted accordingly.

(4) If the mediation does not result in the resolution of the complaint, the Committee shall proceed to consider the complaint.

(5) The Committee may decide to hold an inquiry with respect to a complaint and where it does so the chairperson of the Committee shall notify the other members of the Committee and the complainant and the registered professional of the date, time and place for the hearing, and the notice under this subsection to the registered professional shall be sent by prepaid registered post to the address given in the register, shall contain details of the nature of the alleged complaint against the registered professional and shall inform the registered professional of his or her right to appear before the Committee and to be represented at the hearing by a person of his or her choice.

that person shall be guilty of an offence and shall be liable, on summary conviction, to a fine not exceeding €5,000 or imprisonment for a term not exceeding 12 months or both.

(8) If the contravention in respect of which a person is convicted of an offence under subsection (7) is continued after the conviction, the person shall be guilty of a further offence on every day on which the contravention continues and for each such offence the person shall be liable, on summary conviction, to a fine not exceeding €500.

(9) A witness at a hearing under this section has the same immunities and privileges as if he or she were a witness before the High Court.

(10) On completion of an inquiry, the Committee shall produce a report embodying its findings, including the nature of the complaint, the evidence before it, such other matters relating to the registered professional as it thinks fit and its opinion respecting whether a case
of professional misconduct or poor professional performance was established or not.

(11) The findings of the Committee on any matter referred to it shall not be made public, without the consent of the person who has been the subject of the inquiry, unless the Committee has found the person to be guilty of professional misconduct or poor professional performance.

(12) Where the Committee has not found the registered professional guilty of professional misconduct or poor professional performance it shall so notify the complainant and inform the complainant of his or her right of appeal to the Appeals Board against its finding.

58.—(1) Where the Professional Conduct Committee (the “Committee”) finds there has been no professional misconduct or poor professional performance on the part of the registered professional, it shall take no further action in the matter and shall so inform the registered professional.

(2) Where the Committee determines that a registered professional is guilty of professional misconduct or poor professional performance, it may, subject to the other provisions of this Act, do one or more of the following:

(a) advise, admonish or censure the registered professional in relation to the conduct or performance complained of;

(3) Without prejudice to the operation of the other provisions of this Act in relation to appeals against decisions to exercise such powers, none of the powers under subsection (2)(b) to (e) may be exercised by the Committee unless the decision to exercise the power has been confirmed by the High Court under subsection (6) or, as the case may be, on an appeal to that Court under section 26, 40 or 54 as appropriate, and then may only be exercised subject to the terms (if any) of such confirmation.

(4) Where a registered professional appeals against a decision of the Committee to the Appeals Board within the period provided for
under this Act, the decision of the Committee is stayed until the appeal is disposed of, including any period provided for a further appeal to the High Court.

(5) Subsection (6) applies if—

(a) no appeal under this Act is taken against the decision of the Committee mentioned in that subsection, or

(b) (i) such an appeal taken against the decision has been disposed of and the decision has been confirmed (with or without amendment of it), and

(ii) that confirmation is not a confirmation of the High Court under section 26, 40 or 54, as appropriate.

(6) The Registrar may apply to the High Court for confirmation of a decision of the Committee to exercise the powers under subsection (2)(b), (c), (d) or (e) and, if the Registrar so applies, the High Court, on the hearing of the application, shall, unless it sees good reason to the contrary, declare accordingly and, where the declaration relates to a decision to exercise the powers under subsection (5)(d), either (as the Court may consider proper) direct the Registrar to erase the name of such person from the register concerned or direct that during a specified period (beginning not earlier than 7 days after the decision of the Court) registration of the person’s name in that register shall not have effect.

(7) On erasing the name of a person from any register under this section, the Registrar shall forthwith send by prepaid registered post to such person, at the person’s address as stated in the register, notice in writing of the erasure.

(8) Where a direction is given under this section that during a specified period registration of the name of a person in any register shall not have effect, the Registrar shall, before the commencement of that period, send by prepaid registered post to such person, at the person’s address as stated in the register, notice in writing of such direction.

(9) The name of any person that has been erased under this section may be restored to the register concerned on the direction of the Committee, but not otherwise, and the Committee may attach such conditions as it sees fit to the restoration (including payment of a fee not exceeding the fee provided for an application for registration in the first instance).

(10) Where the registration of a person in a register has ceased to have effect under this section for a period of specified duration, the Committee may, if it thinks fit, on application made to it by such person, by direction terminate the suspension and the Committee may attach such conditions as it sees fit to the termination (including payment of a fee not exceeding the fee provided for an application for registration in the first instance).

59.—Proceedings of or communications to or by a Professional Conduct Committee in the course of an inquiry, and reports of the Committee made in the exercise or performance of its powers, duties or functions, under this Part shall, in any action for defamation, be absolutely privileged.

(2) A person who notifies the Admissions Board pursuant to subsection (1) shall, if the occasion of the notification is the first occasion on which he or she intends, on foot of such a notification, to provide architectural, quantity surveying or building surveying services, as the case may be, in the State, submit the following to the Admissions Board:

(c) an attestation of the competent authority of the Member State where he or she is established that he or she is legally established in that state for the purposes of providing the activities concerned and is not prohibited from practising architecture, quantity surveying or building surveying, as the case may be, temporarily or otherwise, at the time of delivery of the attestation;

(d) evidence of the relevant professional qualifications; and

(e) if required by the Directive as respects an applicant who has moved from the Member State of establishment, evidence that he or she has performed functions commensurate with those of an architect, quantity surveyor or building surveyor as appropriate, in that Member State, for at least 2 of the 10 years preceding the application.

(3) If the occasion of the notification under subsection (1) is not the first occasion on which the person concerned has intended, on foot of such a notification, to provide the relevant services in the State, the Admissions Board may, if there has been a material change in the situation substantiated by any of the documentation referred to in paragraphs (b) to (d) of subsection (2), require the person to submit to it fresh documentation of the kind referred to in the paragraph or paragraphs concerned.

(4) If a period of more than 12 months has elapsed since the registration, pursuant to this section, of a person in the register under Part 3, 4 or 5 (and the period for which the person is so registered has not expired), the Admissions Board may, unless the person does not intend to provide the relevant services in the State in the ensuing period of 12 months, require the person to make a fresh declaration of his or her intention to provide the relevant services in accordance with Article 7 of the Directive; if the person does not make such a
declaration, the Admissions Board may remove the person’s name from the relevant register.

(5) (a) If a person who notifies the Admissions Board pursuant to subsection (1) fails to comply with subsection (2), or as the case may be, with a requirement under subsection (3) then, subject to paragraph (b), the Admissions Board shall decide not to register the person in the register.

(b) The Admissions Board may, at its discretion, afford the person the opportunity to remedy the failure referred to in paragraph (a), and if the person does so within a reasonable time after being afforded that opportunity, the Admissions Board shall register the person in the register.

(6) Where the applicant is registered in the register under Part 3 for a temporary period pursuant to this section, he or she shall use the title of architect while providing architectural services in the State until his or her registration ceases.

(7) Where the applicant is registered in the register under Part 4 or 5 for a temporary period pursuant to this section and is providing quantity surveying or building surveying services in the State, he or she shall—

(a) if a professional title exists for the activity or quantity surveyor or building surveyor, as the case may be, in the Member State where he or she is legally established, use that title, which shall be indicated in the official language or one of the official languages of that Member State, or

(b) if no such professional title exists in the Member State where he or she is legally established, indicate his or her formal qualification in the official language or one of the official languages of that Member State, in a way that avoids confusion with the title of quantity surveyor or building surveyor.

(8) The Admissions Board may, in pursuance of Article 9 of the Directive, require a person who is registered in the register under Part 3, 4 or 5 for a temporary period pursuant to this section to furnish to a person to whom he or she provides architectural, quantity surveying or building surveying services, as the case may be, in the State all or any of the information specified in that Article.

It details the requirements for processing of the appeal by the Board and informing the appellant of the outcome of the appeal. The appeal must be in writing, relate to either procedural or substantive matters and be lodged within 3 months of the date of the decision being appealed. A witness at a hearing will have the same immunities and privileges as a witness before the High Court.

The procedures of the Appeals Board shall make provision for:

(i) notification of the appellant, the Chairperson of the relevant Board or Committee, and any other person whose evidence may be required to attend before the Board on a particular date and time at a specified venue

(ii) advising the appellant of the right to present the case or, at their own expense, through a legal representative

PART 5
REGISTRATION OF BUILDING SURVEYORS

(Sections 42 to 55)

Part 5 provides for the statutory protection of the title of “Building Surveyor” by restricting the lawful use of the title to suitably qualified persons whose names are entered on a statutory register. The registration system will be administered by the Society of Chartered Surveyors (SCS). Part 5 also specifies the criteria for automatic eligibility for admission to the register of Building Surveyors. It provides for the setting up of an Admissions Board, A Technical Assessment Board, and a Professional Conduct Committee. Part 5 further provides for establishment of an Appeals Board to determine appeals against decisions of any of the aforementioned Boards or Committee, with an ultimate right of appeal against decisions of the Appeals Board to the High Court. Finally Part 5 provides for payment of registration fees and appointment of a Registrar and for the determination of fines or penalties for misuse of the title of “Building Surveyor”.

Section 42 designates the Society of Chartered Surveyors (SCS) as the registration body under this Part and as the competent authority for building surveyors in the State. It provides that the registration body must establish an Admissions Board for the purpose of registering members of the building surveying profession. Membership of the Board will be comprised of a Chairperson and 7 members as follows:

(i) 3 building surveyors to be nominated by the registration body, following consultation with certain bodies

(ii) 4 persons (who are not building surveyors) to be nominated by the Minister

(iii) the chairperson, who will be appointed by the Minister, will be a solicitor, barrister or a former judge of the Circuit Court, High Court or Supreme Court

Section 43 sets out the eligibility criteria for admission to the building surveyor’s register for persons holding approved qualifications, including nationals of EU Member States, and the European Economic Area in accordance with EU obligations. It includes nationals or residents of States which are members of the World Trade Organisation and Third Countries.

It also provides that membership of the registration body is not a prerequisite for registration and that the same registration fee will apply to members and non-members of the body.
Section 44 provides for application for recognition of qualifications by persons from Member States who are eligible to apply to the Admissions Board for registration under EU Directive 2005/36/EC (Chapter 1, Title III). It sets out the procedures for assessment of such applications, including the procedures for interview by the Board, the undertaking of an aptitude test/adaptation period, where such is considered necessary. The Board must make its decision on the application within a 3 month period of the date of receipt of a valid application. There is provision for extending the period for assessment by 1 extra month in specified cases.

Section 45 provides for the payment of prescribed registration fees and annual retention fees to the registration body. The Registrar may remove the names of registrants from the register for non-payment of retention fees within two months of sending of a second notice by pre-paid post. Names may be restored to the register on payment of the fee. In cases of verified hardship, the Registrar may remit all or part of the fee.

Section 46 makes it an offence for persons to use the title “building surveyor”, unless entitled to do so, either alone or in combination with either names, letters, titles or descriptions to imply that they are registered; with intent to deceive, makes use of a certificate issued under the Act; makes a false declaration for the purpose of obtaining registration, or aids or abets any such action; practices any business under the name or title containing the word “building surveyor”.

Persons who do so, will be guilty of an offence and will be liable on summary prosecution to a fine of €5,000 and €500 for each day of an ongoing offence, and/or imprisonment for a term of not exceeding 12 months.

Section 47 enables the registration body to appoint a Registrar for keeping an updated register of the names of persons registered. It will also decide on the format of the register. On registration, a certificate will be forwarded to the registrant. The register will be available for public inspection during working hours. It also provides for payment of a salary or fee to the Registrar by the registration body who may also pay pension contributions and travel allowances.

Section 48 enables a registrant to apply to have his/her name removed from the register and to subsequently apply for restoration. An application for removal from a registrant will not be considered while an investigation is underway by the Professional Conduct Committee until such proceedings have been completed and necessary action decided. Nothing in this section will prevent the Professional Conduct Committee from refusing to restore a person’s name to the register on the grounds of unfitness to practice building surveying or attaching certain conditions to the entry, whereupon the Registrar will notify the person of the decision taken, the date and the reasons therefore.

Section 49 provides for the establishment by the registration body of a Technical Assessment Board to consider applications for registration from persons who are not eligible for registration under Section 40. The Board will be comprised of a Chairperson and 7 members as follows:

(i) 3 building surveyors to be nominated by the registration body, following consultation with certain bodies

(ii) 4 persons (who are not building surveyors) to be nominated by the Minister
Section 50 provides for the procedure of the Technical Assessment Board in assessing applications from certain persons who have 8 or 10 years experience in the field of building surveying in the State, on the commencement date of the Section. It cites the documentation to be submitted by applicants for registration, the criteria and format to be used for assessment of applications. It specifies that the Board may interview applicants, if considered necessary. Where interviews are considered necessary, 4 board members will be present and the interview may be recorded in writing or any other format as the board may decide. The interviewee may, at his/her own expense, be accompanied by a professional advisor, including a lawyer. Applicants must be notified of the decision of the Board. Where a decision is favourable, the board will notify the Registrar who will arrange to register the applicant, on payment of appropriate fee.

Section 51 provides for the establishment by the registration body of a Professional Conduct Committee to examine complaints made in regard to alleged professional misconduct. The Board will be comprised of a Chairperson and 11 members as follows:

(i) 5 building surveyors to be nominated by the registration body, following consultation with certain bodies

(iii) the chairperson, who will be appointed by the Minister, with the consent of the Minister for Enterprise, Trade and Employment, will be a solicitor, barrister or a former judge of the Circuit Court, High Court or Supreme Court

Section 52 provides for the establishment by the registration body of an Appeals Board. The Board will be comprised of a Chairperson and 5 members as follows:

(ii) 3 persons (who are not building surveyors), 2 of whom will be nominated by the Minister and 1 will be nominated by the Minister with the consent of the Minister for Enterprise, Trade and Employment, none of whom will be a member of any Board or Committee established under this Part

(iii) the chairperson, who will be appointed by the Minister, will be a solicitor, barrister or a former judge of the Circuit Court, High Court or Supreme Court

Section 53 sets out the procedures for making of an appeal by persons who are adversely affected by decisions of the Admissions Board, the Technical Assessment Board or the Professional Conduct Committee. It details the requirements for processing of the appeal by the Board and informing the appellant of the outcome of the appeal. The appeal must be in writing, relate to either procedural or
The procedures of the Appeals Board shall make provision for:

(i) notification of the appellant, the Chairperson of the relevant Board or Committee, and any other person whose evidence may be required to attend before the Board on a particular date and time at a specified venue

(ii) advising the appellant of the right to present the case or, at their own expense, through a legal representative

(iii) the examination of witnesses

(iv) whether evidence should be taken under oath

(v) recording of evidence

The Appeals Board, having considered an appeal, may:

(i) confirm the decision of the relevant Board or Committee, subject to an amendment

(ii) annul the decision and direct the relevant Board or Committee to make a new decision, or

(iii) give such other direction as it thinks fit

The Chairperson of the Appeals Board shall then notify the appellant by pre-paid registered post of the decision taken, the date of same and the reasons for that decision and of the appellant’s right of appeal to the High Court. The relevant Board or Committee against whose decision the appeal was lodged shall also be informed of the decision. Where the appellant had made a complaint to the Professional Conduct Committee under Part 6, the registered building surveyor against whom the complaint was made, shall also be notified of the decision of the Board.

Section 54 provides for the right of appeal to the High Court by persons adversely affected by a decision of the Appeals Board. The appeal must be lodged within 3 months of the date of the decision of the Appeals Board. The Court may—

(i) confirm the decision of the Appeals Board, subject to any amendment the Court may decide

(ii) overturn the decision and direct the Appeals Board to make a new decision

(iii) give any other direction the Court thinks fit

In the case of an appeal from a decision of the Professional Conduct Committee, the Court may admit evidence of a person of standing in the building surveyor profession as to what constitutes professional misconduct or poor professional performance. The Court may also direct how the costs of the application are to be borne.

Section 55 provides that the Appeals Board will also have jurisdiction in the case of complaints arising from non-decisions by the relevant Board within the period specified under Section 44 (12) or section 44 (13) in assessment of applications for registration.
PART 6

FITNESS TO PRACTICE

(Sections 56 to 59)

Section 56 enables the registration bodies to prepare a Code of Professional Conduct and standards to which registered professionals must adhere. The code may be reviewed from time to time, as considered necessary by the registration bodies. There is a requirement for a public consultation process together with consultation with the Competition Authority. A copy of the code will be available, at a reasonable charge, or without charge as may be determined by the registration bodies.

Section 57 sets out the procedures for examination of a complaint made to the Professional Conduct Committee (PCC) and the conduct of an inquiry into alleged professional misconduct or poor professional performance of a registered professional. Where the Committee decides that a prima facie case has not been made for an inquiry, it will inform the complainant in writing of the decision.

The PCC, following consideration of the complaint and if considered appropriate, may provide for resolution of the complaint initially by mediation between the parties to the complaint, before a person/persons appointed by the relevant registration body. Where mediation is unsuccessful, the Committee must proceed to examine the complaint.

Provision is made whereby the Chairperson of the PCC will inform the members of the Committee and the complainant of the date, time and venue for the hearing. The notification to the registrant will outline the details of the complaint and advise of his/her right to appear before the Committee and be represented by a person of his/her choice.

The PCC, when acting under this section will have the powers, rights or privileges vested in the High Court or a judge of the High Court in regard to enforcing the attendance of witnesses, examining witnesses under oath or compelling the production of documents. Witnesses appearing at an inquiry under this section will have the same immunities and privileges as witnesses before the High Court.

On completion of an inquiry, the PCC must produce a report embodying its findings, to include the nature of the complaint and the evidence before it. The findings of the Committee will not be made public, without the consent of the registrant who has been the subject of the complaint, unless he/she has been found guilty of professional misconduct or poor professional performance by the Committee.

Where the PCC has found the registrant not guilty of professional misconduct or poor professional performance, it must so notify the complainant and advise of the right of appeal to the Appeals Board. Persons who fail to attend a hearing, fail to produce necessary documents or refuse to take an oath or answer questions which the Committee may lawfully ask, will be guilty of an offence and will be liable, on summary conviction to a fine not exceeding £5,000 and €500 for each day of an ongoing offence and/or to imprisonment for a term not exceeding 12 months.

Section 58 provides that where the PCC finds there has been no professional misconduct or poor professional performance by the
registrant, it will notify the complainant and the registrant of the
decision and take no further action. Where the Committee finds that
a registrant is guilty of professional misconduct or poor professional
performance it may do one or more of the following:

— advise, admonish or censure the registrant;

— impose a fine of a specified amount, which, if unpaid after a
2 month period has elapsed following notification of the fine,
the Registrar may strike the registrant’s name from the
register;

— suspend the registrant from the register with provision to
reapply for admission after a specified period;

— erase the registrant’s name from the register permanently;

— allow for the registrant’s name to remain in the register sub-
ject to the imposition of certain conditions for so remaining
as it considers appropriate, to be complied with by the
registrant.

The Chairperson of the PCC must inform the registrant by pre-
paid registered post of the decision, the date thereof and the reasons
for that decision and of the registrants right to appeal to the Appeals
Board. The decision of the PCC must be stayed where the registrant
appeals to the Appeal Board within the specified period, until the
appeal is disposed of, to include the time specified for appeal to the
High Court.

Where no appeal is made against the decision of the PCC, or an
appeal is made and has been disposed of, and where the decision of
the Committee to strike the registrant from the register has been
upheld, the Registrar may apply to the High Court for confirmation
of the decision and the Court shall, on hearing the application, unless
it sees good reason to the contrary, confirm the decision and either
direct the registrar to remove the registrant’s name from the register
or direct that during a specified date (beginning not earlier than 7
days after the decision of the Court) registration of the professional’s
name shall not have effect.

The Registrar must notify the registrant by pre-paid registered
post of either direction of the Court. The name of a registrant which
has been erased or suspended under this section, may be restored
to the register on the direction of the PCC, subject to any conditions
specified, including payment of a fee which must not exceed the
initial registration fee.

Section 59 provides that the proceedings of or communications by
the PCC in the course of an inquiry, and any reports made in the
exercise of its powers, duties or functions under this Part are abso-
lutely privileged in any action for defamation.
