Subject: Submission: Proposed plastics factory in Skibbereen

Dear Sir or Madam,

In view of the planning application to build a plastics factory in Skibbereen, I wish to make an objection in terms of its impact on marine planning in the area.

I would also like to include my support for the submission by the SOS group ('Save Our Skibbereen'). I refer to:

<http://saveourskibbereen.ie/our-national-marine-planning-process-how-to-make-a-submission/>

As a chemist, I am concerned about the introduction of such materials into the West Cork environment. A basic law of chemistry is the conservation of matter; matter cannot be created nor destroyed, only changed from one form to another. It is vital that the environment of West Cork is not changed detrimentally as a consequence of introducing this industrial development into the area.

I trust that you will give the matter due consideration.

Yours faithfully,
