

To whom it concerns

With regard to being on the register a link should be done with a person's PPS number as there is many off the same names at the same address.

I think it should be mandatory for everyone to bring there Identification and polling cards to the station to vote and a vote not to be issued without Identification.

I think a form should be done to eliminate a person's name from previous address which they are still live on the register with.

Some way should be done for people who are deceased to be taken off the register before elections comense.

A email polling card could also be issued to people so they can vote.

All people should be sent out forms to update all information on them and so there names are the same as on the register and address houses names to match there ID.

Thanks
